

volume of transactions, and no subscriber contract or contract offer may require the subscriber to lease a minimum number or ratio of system components based upon or related to:

(1) The number of system components leased from another system vendor or

(2) The volume of transactions conducted on any other system.

(c) No system owner may require use of its system by the subscriber in any sale of its air transportation services.

(d) No system owner may require that a travel agent use or subscribe to its system as a condition for the receipt of any commission for the sale of its air transportation services.

(e) No system may charge prices to subscribers conditioned in whole or in part on the identity of carriers whose flights are sold by the subscriber.

§ 255.9 Use of third-party hardware, software and databases.

(a) No system may prohibit or restrict, directly or indirectly, the use of:

(1) Third-party computer hardware or software in conjunction with CRS services, except as necessary to protect the integrity of the system, or

(2) A CRS terminal to access directly any other system or database providing information on airline services, unless the terminal is owned by the system.

(b) This section prohibits, among other things, a system's:

(1) Imposition of fees in excess of commercially reasonable levels to certify third-party equipment;

(2) Undue delays or redundant or unnecessary testing before certifying such equipment;

(3) Refusal to provide any services normally provided subscribers because of a subscriber's use of third-party equipment or because of the subscriber's using the same equipment (unless owned by the system) for access to both the system and to another system or database; and

(4) Termination of a subscriber contract because of the subscriber's use of third-party equipment or use of the same equipment for access to the system and to another system or database.

(c) A system shall make available to developers of third-party hardware and

software on commercially reasonable terms the nonproprietary system architecture specifications and other nonproprietary technical information needed to enable such developers to create products that will be compatible with the system.

(d) Nothing in this section shall be construed to require any system or system owner to:

(1) Develop or supply any particular product, device, hardware or software to enable a subscriber to use another system, or

(2) Provide service or support with respect to any product, device, hardware, software, or service not provided to a subscriber by the system or system owner.

§ 255.10 Marketing and booking information.

(a) Each system shall make available to all U.S. participating carriers on nondiscriminatory terms all marketing, booking, and sales data relating to carriers that it elects to generate from its system. The data made available shall be as complete and accurate as the data provided a system owner.

(b) Each system shall make available to all foreign participating carriers on nondiscriminatory terms all marketing, booking, and sales data relating to bookings on international services that it elects to generate from its system, provided that no system may provide such data to a foreign carrier if the foreign carrier or an affiliate owns, operates, or controls a system in a foreign country, unless such carrier or system provides comparable data to all U.S. carriers on nondiscriminatory terms. Before a system provides such data to a foreign carrier, it shall give written notice to each of the U.S. participating carriers in its system that it will provide such data to such foreign carrier. The data made available by a system shall be as complete and accurate as the data provided a system owner.

(c) Any U.S. or foreign carrier receiving data on international bookings from a system must ensure that no one has access to the data except its own personnel and the personnel of any outside firm used for processing the data

§ 255.11

on its behalf, except to the extent that the system or a system owner provides such access to other persons.

§ 255.11 Exceptions.

(a) The obligations of a system under § 255.4 shall not apply with respect to a carrier that refuses to enter into a contract that complies with this part or fails to pay a nondiscriminatory fee. A system shall apply its policy concerning treatment of non-paying carriers on a uniform basis to all such carriers, and shall not receive payment from any carrier for system-related services unless such payments are made pursuant to a contract complying with this part.

(b) The obligations of a system under this part shall not apply to any foreign carrier that operates or whose affiliate operates an airline computer reservations system for travel agents outside the United States, if that system discriminates against the display of flights of any United States carrier or imposes discriminatory terms for participation by any United States carrier in its computer reservations system, provided that a system must continue complying with its obligations under this part until 14 days after it has given the Department and such foreign carrier written notice of its intent to deny such foreign carrier any or all of the protections of this part.

§ 255.12 Termination.

Unless extended, the rules in this part shall terminate on March 31, 2000.

14 CFR Ch. II (1-1-00 Edition)

§ 256.1 Purpose.

The purpose of this part is to set forth a requirement for operation by air carriers of computer reservation systems used by travel agents so as to prevent unfair, predatory, and anti-competitive practices in air transportation.

§ 256.2 Applicability.

This rule applies to air carriers or foreign air carriers that own, control, or operate computerized reservation systems for travel agent subscribers in the United States, and the sale in the United States of interstate, overseas, and foreign passenger air transportation through such systems.

§ 256.3 Definitions.

Carrier means any air carrier, any foreign air carrier, and any commuter air carrier, as defined in 49 U.S.C. 1301(3), 49 U.S.C. 1301(22), and § 298.2(f) of this chapter, respectively that is engaged directly in the operation of aircraft in passenger air transportation.

Display means the system's presentation of carrier schedules, fares, rules or availability to a subscriber by means of computer terminal.

Subscriber means a ticket agent, as defined in 49 U.S.C. 1301(40) of the Act, that holds itself out as a neutral source of information about, or tickets for, the air transportation industry in general, and that has entered into an agreement for the use of a system.

System means a computerized airline reservation system offered by a carrier to subscribers, for use in the United States that contains information about schedules, fares, rules or availability of other carriers and that provides subscribers with the ability to issue tickets.

System vendor means a carrier that owns, controls or operates a system.

Designator code means the airline designations allotted and administered pursuant to Agreements CAB 24606 and 26056.

§ 256.4 Display of information.

(a) A system vendor shall not deny access to its system to two or more carriers whose flights share a single
